## Rupa is an outstanding mentor

Rupa is an outstanding mentor! She doesn't just help to uncover my own answers for the obstacles I am facing but shares her super-useful, pragmatic ideas on how to turn vision into next steps. I can only highly recommend her!

## OVER DELIVERS

These 6 days of learning techniques to do sales in a time and age where the attention of the ppl is less than 30 seconds. I thought Rupa did a phenomenal job. She over delivers what she promises. This master class teacher is really amazing with only one motto to help.

There's no mentor like you Rupa, hope new members know what a wonderful mentor you are. Stay blessed Rupa ❤️

## Personal attention WOW

I have attended several of Rupa's trainings and it's very rare to see someone so vested in their audience. She truly cares about the growth of each individual and is always finding ways to liven her trainings and engage everyone! The trainings are informative, clear and easy to implement. You will celebrate that you have taken the classes! Great work!

Hi Rupa Patil,  
I wanted to write this in the month of Jan 2021. But wanted to check if it's just a placebo effect. But now with all my confidence I can say it was your 1 hour program I attended in August or September.

I am a Psychologist, I have more than 19 years of training and education. I was thinking to start the online training. But as I was occupied with my regular training and work I had no time to implement. During 2020 when Covid Lockdown was enforced, and even my regular training was on halt, I thought of starting online live classes but somehow I was kept on postponing. After joining this group, I attended Rupa's one hour program.

It was a simple process program yet powerful enough to take me ahead in my path. I gave a commitment to myself on that day that I would create a number of online students with a number of webinars/workshops.

After that day, I started my webinar and live workshops. Now my webinars and workshops are favorite among 2000+ students. Every time my webinar is filled with 50+ participants. I can say proudly I could meet my commitment.

My heart felt thanks to you @RUPA PATIL

## Thank you Rupa!

Hey Rupa Thank you soooooo much for guiding, supporting and directing me always. I have been learning so much along with the journey I started with you as my coach.

I have been fortunate to be a part of Transformational Heart Leaders. Learning and growing with the heart leaders has been so helpful. It's the only group where I enjoy to be a part of.

Your 30 days video challenge has actually prepared me so strong to face camera with no fears. Today and I can feel the ease to shoot videos. Thank you ❤️🙏
